**Subject:** Stop Formosa Plastics media coverage of Air Permit WIN!!!!  
**Attachments:** 20 Sept 2022 Stop Formosa Plastics media coverage of Air Permit WIN.pdf

Dear All,

As I hope you know, we have had a *Great Win in the Stop Formosa Plastics Campaign* in St. James, Louisiana.

This project started in 2018 with much fanfare from Governor Edwards (Louisiana), Louisiana Chemical Association, Formosa Plastics, and others.

Here we are 4 years later, and Judge White has thrown out the Louisiana Department of Environmental Quality (LADEQ) Air permit. The Corps of Engineers has yet to start the Full Environmental Statement (EIS).

This Victory was brought about with the Leadership of Sharon and Rise St. James and many other Environmental, Environmental Justice, and Legal Teams, with tens of thousands of hours of hard work and grit.

The fight is not over yet we think that Formosa may appeal Judge White's Ruling.

Attached is a document with all the print media stories that I have seen.

If there are others, please send them to me:)

**But for now, we Party.** 😊😊❤️🎵🕶️

***Laissez les bons temps rouler***

Yours in the Struggle,

Darryl

*Those who profess to favor freedom and yet depreciate agitation, are people who want crops without ploughing the ground; they want rain without thunder and lightning; they want the ocean without the roar of its many waters. The struggle may be a moral one, or it may be a physical one, or it may be both. But it must be a struggle. Power concedes nothing without a demand; it never has and it never will. Find out just what any people will quietly submit to and you have found out the exact measure of injustice and wrong which will be imposed upon them, and these will continue till they are resisted with either words or blows, or with both.*

**Frederick Douglass**
